

The 3rd Bangkok International Fetal Echocardiography Symposium

18–20 January 2016
Shangri-La Hotel Bangkok, Thailand

This three-day symposium will provide a clinically-oriented series of presentation and discussion towards health-care professional involving with fetal echocardiogram. The variety of topics would range from fetal cardiac screening towards detailed fetal echocardiogram. The course will emphasize the basics of fetal cardiac imaging and evaluation by internationally well known speakers in the field of maternal-fetal medicine and pediatric cardiology. During the didactic and practical presentations, attendees will improve their competence in fetal cardiac imaging, learn how to optimize image quality, how to scan and evaluate the normal fetal heart and abnormalities from the four-chamber view and also the outflow tracts. Moreover, the symposium will provide an opportunity for the delegate to participate in “**hands-on section**” and discussion during the “**live-demonstration**”.

Abstract submission is welcome for potential presentation during the conference with the special registration rate for the presenters.
