

日本小児循環器学会 会員の皆様

明けましておめでとうございます。

静岡県立こども病院で心臓血管外科をしております坂本喜三郎と申します。

来たる2月27日、28日に小生が主宰させていただく「第3回 Mt. Fuji Forum」（日本平ホテル、静岡市）のお誘いをさせていただきたく存じます。

第3回となる今回は

main theme を「*Can we let the Fontan patients climb up Mt. Fuji?*」

とさせていただき、Fontan 循環を多角的かつ科学的に考察する“少しエキセントリック？な一日半の研究会”として設定させていただきました。

口演、座長、コメンテーターなどとして、日本は勿論、韓国、香港、シンガポール、マレーシアなどアジアの多くの国々から、そしてまた小児循環器医、先天性心臓血管外科医は勿論、新生児科医、産科医、麻酔医、看護師に参加をして盛り上げていただけることになり、本当に嬉しくかつ感謝している次第です。

特に、Mt. Fuji Forum としてはアジア・オセアニア以外から初めてお招きさせていただくことにした元トロント小児病院小児循環器部長の Andrew N. Redington 先生には2つの特別講演をお願いして快諾いただき、私自身も本当に楽しみにしております。

皆様の日程が許すようであれば是非とも御参加いただければ幸いです。

それでは、皆様よろしく御願いたします。

敬具

第3回 Mt. Fuji Forum

会長 坂本喜三郎 拝

Welcome address:

It is my great honor to invite you to the 3<sup>rd</sup> Mt Fuji Network Forum. This multi-disciplinary conference encompasses a wide range of topics related to congenital heart diseases. This time we will focus on Fontan circulation from basic science to forefront imaging technologies and treatments. The program committee thoughtfully designed sessions that give comprehensive reviews of current opinions related to Fontan. The all invited speakers are renowned experts in their fields.

As you may know, Mt Fuji was selected as a world heritage site by UNESCO last year. Mt Fuji has long been worshiped as a sacred mountain by Japanese people and its beautiful shape has attracted many artists and poets throughout the centuries. Nippondaira Hotel, the venue of the Forum, locates at one of the best sites to overlook Mt Fuji, and its beautiful Japanese garden is the best place where you can stroll and relax during the conference. We cordially welcome you to join this forum.

Kisaburo Sakamoto, MD

President of the 3<sup>rd</sup> Mt Fuji Network Forum

## Registration Information

Register online at:

<http://v3.apollon.nta.co.jp/fujinetwork/>

### Registration fee:

	Early fee until Jan 25 <sup>th</sup> 2015	Late fee from Jan 26 <sup>th</sup> 2015	On-site fee
Full forum fee	\$150.00/¥15,000	\$180.00/¥18,000	\$180.00/¥18,000
Forum fee	\$50.00/¥5,000	\$50.00/¥5,000	\$50.00/¥5,000
Network party ticket	\$120.00/¥12,000	\$120.00/¥12,000	\$120.00/¥12,000

### Fees include:

- 1) Full forum fee:
  - Access to all scientific sessions.
  - Free lunch and free transportation from JR Shizuoka station.
  - Network party ticket (special dinner and drink will be served)
  - Accommodation (room type: single) for 1 night (Feb 27<sup>th</sup> 2015).  
(You can upgrade your hotel to Nippondaira hotel with extra charge)
- 2) Forum fee:
  - Access to all scientific sessions.
  - Free lunch and free transportation from JR Shizuoka station.
- 3) Network party ticket:
  - Network party (special dinner and drink will be served)
  - Free transportation from JR Shizuoka station.

### Cancellation policy

If you cancel your participation in this forum, your registration fee will be refunded when written notification is received before Feb 15<sup>th</sup> 2015 (ch-cs@i.shizuoka-pho.jp).

No refunds will be made on or after Feb 15<sup>th</sup> 2015.

**27th. Feb. Preliminary program ( All programs are operated in English)**

9:20~ Opening remarks: Can we let the Fontan patients climb up Mt. FUJI? Dr. Kisaburo Sakamoto

9:30~ ●Forum 1: Front-line in Perinatal fields related to Fontan Circulation

Embryology for the Fontan candidates.	Dr. Isao Shiraishi
Diagnostic Strategy for Fetus with f-SV	Dr. Yasuki Maeno
Prenatal Planning for the Fetus with f-SV	Dr. Hikoro Matsui
Recent status quo for Fetus and Newborn with f-SV in South-East Asia	Dr. Hasri Samion

10:20~ ●Forum 2: Front-line in making Fontan circulation-1

How to Manage Newborns with f-SV	Dr. Kennichi Kurosaki
Special Consideration for Isomelism Heart	Dr. Soo-Jin Kim
Preparatory(Palliative) ope. for good Fontan Circulation; How to Decide reasonable PBF	Dr. Dong Man Seo
Preparatory(Palliative) ope. for good Fontan Circulation; How to Manage PV Anomaly	Not confirmed

11:10~ ●Compass lecture 1

"How Small rt. or left Ventricle is too Small?" Dr. Andrew N. Redington

11:40~ ●Update discussion 1

Update case discussion on the real borderline cases

12:10~ Lunch

13:10~ ●Forum 3: Front-line in making Fontan circulation-2

Decision-making and Therapeutic Strategy before Glenn	Dr. Satoshi Masutani
Catheter Intervention around Glenn	Dr. Seong-Ho Kim
How to Manage AVV regurgitation for f-SV	Dr. Chang-Ha Lee
Who are the Candidates for DKS procedure for f-SV?	Dr. Makoto Ando

14:00~ ●Forum4: Front-line in making Fontan circulation-3

Cardiac Mechanics and Haemodynamics in Fontan Circulation	Dr. Yiu-fai Cheung
Blood Flow Visualization Study in Congenital Heart Surgery	Dr. Kenichi Itatani
New Insight into Flow Dynamics of Fontan Circulation	Dr. Takashi Honda
Quantitative MR Imaging of Fontan Circulation	Dr. Yuichi Ishikawa
How to Make Good Fontan Circulation, including "Fenestration or not"	Not confirmed

15:00~ Coffee break

15:20~ ●Compass lecture 2

"Basic Physiology of Fontan Circulation" Dr. Andrew N. Redington

15:50~ ●Update discussion 2

Update case discussion on the real borderline cases

16:20~ ●Forum5: Front-line in making Fontan circulation-4

Management for the Patients with f-SV in Ope. Room	Dr. Shoichi Uezono
Postope. Management after Fontan stage	Dr. Kazuya Tachibana
How to Manage Fontan Circulation with "PH"	Dr. In Sam Park
Perspevtives for Patients with Fontan circulation: from Nurse's Points of View	Ns. Satomi Gonnokami

17:10~ ●Update discussion 3

Update case discussion on the real borderline cases

17:40~ Free Talk with Cheese & Wine

19:00~ Forum Dinner

28th. Feb. Preliminary program ( All programs are operated in English)

8:00~	Breakfast	
8:15~	Update surgical video with breakfast	
9:00~	<b>●Forum 6: Front-line in Follow-up for Fontan circulation-1</b>	
	Review of Complications or Survival Outcomes of Fontan	Dr. Swee Chye Quek
	Pre-pregnancy Evaluation of Women with Congenital Heart Disease	Dr. Chizuko Kamiya
	Optimal Care for Pregnant Women with Congenital Heart Disease	Dr. Jun Yoshimatu
9:35~	<b>●Forum 7: Front-line in Follow-up for Fontan circulation-2</b>	
	Failing Hemodynamics long after the Fontan operation (tentative)	Dr. Hideo Ohuchi
	Liver Function late after Fontan Completion	Dr. Yasuhiko Tanaka
	Arrhythmia for the Patients with f-SV	Dr. Keiko Toyohara
	Catheter Ablation after Fontan Completion	Dr. Hisaaki Aoki
	Surgical Intervention late after Fontan Procedure	Not confirmed
	VAD & Transplantation for Failing Fontan, including Animal Study data of Circulatory Support	Dr. Osami Honjo
10:50~	Coffe Break	
11:10~	<b>●Final update discussion</b>	
	Update case discussion on the real borderline cases	
11:40~	Closing talk session & closing remarks :“Can we let the Fontan patients climb up Mt. FUJI?”	
12:00~	Lunch	

**Can we let the Fontan patients climb up Mt. FUJI?**

The 3<sup>rd</sup>

# Mt. Fuji Network Forum

Fri. 27<sup>th</sup> – Sat. 28<sup>th</sup> February. 2015  
“NIPPONDAIRA HOTEL” Shizuoka, Japan

*Feel True Japanese Atmosphere and Hospitality*

*under World Heritage, Mt. FUJI*

## **Message from the president, Kisaburo Sakamoto**

It is my great pleasure and honor to invite you to a multidisciplinary cardiac conference entitled “The 3<sup>rd</sup> Mt. Fuji Network Forum”, which encompasses all of the fields related to congenital heart disease.

We will focus on “Fontan circulation from basics science to front-line”, this time.

By the way, the Mt. FUJI has been a world heritage last year.

And I would proudly like to inform you that conference venue:

Nippondaira hotel is the best resort hotel to see and feel the Mt. FUJI in Japan.

Why don't you join this extraordinary conference?

● For registration, please refer to HP below or attached files:
